

Our New Senior Leisure Time Club House From a Thought – To Reality

It seemed our town was in need of a new building
Where seniors could meet to relax and play
The idea looked like a good one
That perhaps – might happen – some day

Then these tiny little seeds of thought
Almost too small to find
Were gathered and planted and nurtured
By some folk with the same goal in mind

These tiny seed thoughts became rooted
And broke thro' the soil and spread
Until one day they blossomed
Into a dream instead

This dream of a building began to grow
Tho' there were some things important it lacked
Dollars and workers willing and able
To make the dream become fact

But the wheels were soon set in motion
By the offer of both donations and more active hands
And little by little we watched unfold
The fulfillment of those first fragile plans

While there are still many jobs to finish
Still more errands to run
And dollars to be collected
The bulk of the labour is finally done

So let us take this moment to say to that diligent crew
Who worked on 'til the victory was won
Thro' months of problems, trials and setbacks
"Three cheers" for a job well done

For the building is now all but completed
No more mere thoughts, dreams or plans
The mission has been accomplished
Our Leisure Time Club House now visibly stands

This project from the start has been a challenge
A first for our growing community
May it be an outstanding landmark
Down thro' the years to be

May God watch over it, bless it and keep it from harm
That it will never cease to provide
Leisure time fun-filled hours
And warm smiling faces inside

So today is a day to remember
We have gathered together to see
How tiny seeds of thought – and far away dreams
Became a reality
